Part 4 Withholding Instructions

- **Federal Withholding:** You are liable for federal income tax on the taxable portion of your distribution. If total withholding is not adequate, you may be subject to estimated tax payments and/or penalties.
- **State Withholding:** Withholding rules vary by state. Clients may have the option to: (1) opt-out of withholding, (2) elect default state tax withholding, or (3) increase the rate of withholding. Depending on the state, state tax withholding could be mandatory, optional, unavailable, or the client may need to complete a state-specific form. For state tax withholding rules, go to riversource.com/statetax.
- Please note that taxes withheld per your elections or in accordance with state rules will not be refunded.
- Different withholding rules apply in certain situations: If we do not have a valid Taxpayer Identification Number on the account, if the payment is delivered outside the United States or if you are a non-resident.
- For all tax-qualified annuities: Withholding is taken from the total amount distributed.
- For non-qualified annuities: Withholding is taken from the taxable amount distributed.
- Withholding choices are not generally available if your distribution is an eligible rollover distribution from certain employer sponsored plans. For eligible rollover distribution, 20% federal withholding will apply even if you indicate otherwise.
- Please consult your tax professional for additional information regarding federal and/or state withholding.

Part 5 Signatures and Acknowledgements

You have read and understand:

-  "You" refers to the client. "We" refers to RiverSource Life Insurance Company.
- All transactions are processed as of the date the acceptable signed request from the contract owner(s) is received in the corporate office.
 - This paragraph applies only to non qualified annuities, and only if the annuity is or was part of a partial 1035 exchange from one annuity to another annuity. IRS Revenue Procedure 2011-38 states if withdrawals are taken from either annuity within a 180-day period following a partial 1035 exchange, the IRS will apply general tax principles to determine the tax treatment of the previous exchange and the subsequent withdrawal. For example, a distribution from either contract within 180 days of the exchange may result in additional taxable income related to the contracts involved in the exchange. The IRS tax treatment may be different than what is reported on Form 1099-R. A tax advisor should be contacted before any withdrawals are taken from either annuity contract during the 180-day period. This 180-day limitation on withdrawals does not apply to annuitized amounts if the annuitization is for life/lives or a period of 10 years or more.
 - Federal Tax law requires all non-qualified deferred annuity contracts issued by a company to a policyholder during the same calendar year be treated as a single, unified contract (Serial Annuities). All income included and taxed in a distribution for one or more Serial Annuities are aggregated with regard to any earnings and cost basis. If your annuity is a Serial Annuity, the tax information included with your check may not include the Serial Annuity calculation. Tax information for a Serial Annuity distribution will be sent in a separate letter.
 - You understand that the decision to take this withdrawal is final.
