

Evaluating advisory solutions (managed accounts)

Advisory solutions at Ameriprise allow you to receive ongoing investment advice with an asset-based fee structure. This allows you to implement your investment strategy, generally without paying individual trading costs for each trade placed within one or more advisory accounts.

These are just a few important questions you may want to discuss with your financial advisor when evaluating advisory solutions:

- How do you want to participate in the investment decision making process?
- What are your tax needs?
- What types of investment(s) do you intend to purchase?
- How much are you planning to invest?

Overview of advisory solutions

This chart compares some features of different advisory programs available at Ameriprise Financial. Work with your financial advisor to determine which program(s) is right for you. For a full description, including fees and expenses, review the applicable Client Disclosure Brochure described below.
