## Part 3 Acknowledgments and signatures

I represent and acknowledge that I have received and read the most current variable annuity prospectus which describes the Portfolio Stabilizer funds.

I understand and agree that:

- I will no longer be eligible to invest in any Portfolio Navigator funds for as long as my rider is in effect. My decision to transfer to the Portfolio Stabilizer fund(s) should be consistent with my investment objectives.
- My withdrawal benefit rider (if applicable) may require an automatic reallocation of my annuity contract value to the moderate fund when I take a withdrawal (if I am invested in a more aggressive fund). Because I elected to transfer to the Portfolio Stabilizer fund(s), this automatic reallocation will no longer occur.
- The Portfolio Stabilizer funds seek to provide growth and current income (i.e., total return) while managing the impact of equity market volatility in my portfolio. The funds change their level of equity and fixed income exposure based on market volatility. When volatility is higher or expected to be higher, equity exposure is reduced. While I may still experience losses in declining markets, the funds' strategy may lessen the impact to my contract value. When volatility is lower or is expected to be lower, equity exposure is increased. In high volatility markets where the market is rising, I may miss out on gains. This may suppress benefit values if eligible for a Step-up. There is no guarantee the funds will be successful in managing portfolio volatility.
- The withdrawal benefit rider, the accumulation benefit rider and the Portfolio Stabilizer funds all offer different types of protection from poor market performance. The withdrawal benefit rider offers guaranteed income over time regardless of market performance. The accumulation benefit rider guarantees principal and a portion of earnings at the end of a waiting period. The Portfolio Stabilizer funds use investing strategies that are designed to help provide protection in volatile markets. I should consider the guarantees provided by my rider and the protection provided by the Portfolio Stabilizer funds when choosing one or more of these funds as my investment option.
- My annuity contract value must remain invested in the Portfolio Stabilizer funds as long as my rider is in effect. As a
  result, if I no longer want to invest in the Portfolio Stabilizer fund(s), I must terminate my annuity by withdrawing all of
  my money. Surrender charges and tax penalties may apply. Therefore, I should only transfer to the Portfolio
  Stabilizer fund(s) if I intend to remain invested in the Portfolio Stabilizer funds for the period of time my rider is in
  effect.
- I will be mailed an endorsement to my annuity contract describing the terms and conditions associated with my election.
- Changes to the available investment options under my rider are subject to the prior approval of the New York Department of Financial Services.

The annuity's prospectus and underlying investment's prospectus contain more complete information, including investment objectives, risks, charges, expenses, limitations and restrictions. You may obtain a copy of the prospectuses and any applicable supplements at our website, riversource.com, or by calling 1.800.333.3437. Read the prospectuses and any applicable supplements and consider the information carefully before selecting one of the funds above. For further details regarding your annuity contract, your rider or the investment options, please consult with your financial advisor or call 1.800.541.2251.
